The R.S.G. system corresponds roughly to the Civil Defence areas, and its HQ is called CHAPLIN. The R.S.G.'s are also linked to a military HQ at Aldershot (24431)

Why do we reveal this secret information ? We do it because it governs your future and ours, and wether there is to be any future for us at all.

The Civil Defence exercise in East Anglia fails to persuade us that there is some defence against nuclear war. There is not. The 1957 Defence White Paper said that there was not. If we allow ourselves to be decieved by C.D. and the R.S.G. system we become accessory to plans for our annihilation in the event of nuclear war. The only defence is for people to take action to prevent the danger arising in the first place and to act against nuclear and military installations everywhere.

If ordinary Americans and Russians (& French & Germans) follow our example we shall have taken the best, and perhaps the only action that will secure peace.

It is impossible for us to act unless we know what is going on. Now you know. Will you act ?

"The Secret Anthem"

God save our R.S.G.
No room for you and me
Where shall we be ?
We shall die alone in the wilderness
Our queen could not care less !
The whole countrys in a bloody mess
God save R.S.G.s.
